

# House Paint

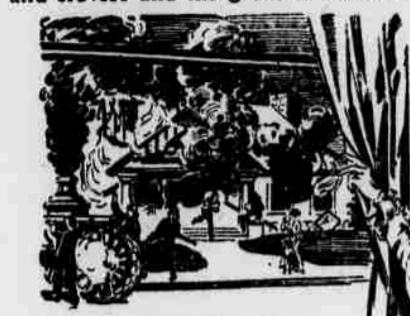

## \$2.25 Per Gallon

You can't afford to let your house or out buildings go through the trying winter weather without a protective coat of paint when you can buy good paint for so little.

We have a few gallons of paint that was left over from our last Fall purchase, and to clean up this stock, we are making this extremely low price. This paint will cover 300 square feet of surface two coats to the gallon and it is fully guaranteed. Don't delay your purchase for we have just a few gallons left and it will soon be nabbed up.

Fall is the ideal time for painting. The summer sun has pulled and tugged at every exposed crack and crevice and the grain of the wood is open, ready to take in the paint and if it is not filled with linseed oil and paint, it will take in every drop of water that these cracks and pores will hold, and not only that, it will let the water into the inner walls of the building and soon rot will commence to eat the very heart out of your buildings, the frame work.

Protect your home, and your out buildings. Every year you allow them to stand unpainted increases the repair bill. Every year you allow them to go unpainted, it will take that much more paint to paint them. You insure your buildings against fire, but unless they are well painted they are exposed to a more dangerous enemy, the sly, creeping, ever-eating rot.

Our new fall stock of Lomoco Paint is just now coming in. Lomoco paint is made especially for us. It is a heavy, durable, elastic paint with just the proper amount of pure Lead, Linseed Oil and coloring material. Lomoco paint is manufactured according to our own formula. We put our own label on Lomoco Paint because we know it is made of the best of paint material, and we are not afraid it will go bad on the building, therefore, we guarantee it.

Lomoco Paint is not expensive. One gallon will cover 300 square feet two coats. It is fresh. We have the manufacturers to put it in containers and ship it direct from the factory to our yards. Don't let your buildings go unpainted when you can buy this guaranteed paint that will cover so much space.

### Brighten Up Inside

The indoor months are almost here and the wood work, chairs, floors and furniture are looking dusty, dirty and gloomy.

#### BRIGHTEN UP

Lomoco Varnish stains will do the trick. Anybody can apply them. They are durable, can be washed, and are made in several of the most desirable hard wood colors, Dark Oak, Light Oak, Mahogany, Cherry, Walnut and several other colors. This stain will wear on floors, furniture and all interior wood work. It will make the indoor months more cheerful, your home more inviting.

## Implements

Without a coat of protective paint soon, rot and rust. They don't wear out, they rust and rot out. Your implements have had hard service this season, and before you put them away for the winter they should have a coat of Lomoco wagon and implement paint. It will protect them in the shed, field or under the old shade tree, wherever you use them or leave them, it will protect them. They will come out of the shed ready for instant use, if they are protected against rust with paint.

One new repair that will rust or rot out this winter would cost more than enough paint to paint all the implements you have. Don't neglect your implements. They are more valuable today than ever before.

Lomoco Implement, Wagon and Boiler Paint is made especially to be used on Implements, Wagons, Buggies and the boiler paint is made especially for engine boilers and smoke stacks.

Don't neglect your implements.

For Lomoco Paint, Varnishes, Brushes, White Lead, Linseed Oil, Window Glass, Putty, and Paint Supplies.

### On the Wing.

Sign for The Times and you will get a free ticket to see Sunny Jim. He is a sight. You will not need any X-Ray. You can read what will be in his next Sunbeams.

Old Johnny, of Elkhart, stay with us. Don't be jumping around and even if you are absent let us hear from you each week.

Jno. Geer's son, Roy, was hot in Nevada Saturday night and was buried in the Virginia cemetery Tuesday.

M. G. Hedger wants a hand. He don't want him to work much. He just wants him to follow him around and see that he works.

Chas. Heckadon has his wheat sowed.

Ike Dawson says he's tramping straw nowadays for a living. His son Benny, drives; his son, Billie, ties and his hired help pitches.

Alfred Miller is recovering his house.

Will Linkenfellow will live on the Morrison ranch, 4 miles southwest of Virginia, next year.

J. D. Haden and Miss Jessie Hazen of Amoret were married one day last week. Mr. Haden did well. She will know how well she has done later on.

Miss Warner and Mr. Yager were married last week.

Two girls and one boy of W. W. Park's have been married inside of 50 days. The last child now is married. He's got a new car and that will give him some place to go. No children to look after and no one to do his chores.

John Fritts has been using two tanks and two monkeys to furnish water for his engine. Since the rain Ike Lockridge is his monkey and keeps him in water and uses both tanks.

Ike Lockridge, of Amsterdam, Rt. 2, moves the date ahead 12 months on the good times.

Geo. Lockridge has moved his family down by Rich Hill on the Kerns ranch and has taken charge of the ranch by the month.

P. C. Burris will remain on his old place until March 1st, 1919. He sold it to Geo. Lockridge.

J. G. Cuzick has bought a new Van-brunt wheat drill and says this fall he will sow his wheat in time and not wait until his neighbors all get done.

Miss Ayres visited Tom Grimsley's girls Sunday.

Dub Grimsley put corn in his buggy Sunday evening. His girl must live in town.

Doug Browning is going back to Foster this month to work in the coal.

Ora Browning rides nowadays in a new wagon.

The rains settled the confusion over the right to the spring in the Public Highway.

Mrs. N. M. Nestlerode spent Monday with her daughter, Mrs. Grant Oldham.

Ethel Grimsley is at the switch board nowadays in Amoret.

Dub Grimsley is on a study as to which to do, to register or get married. He has concluded to register and thinks it is safer.

Marion Hedger chucked three acres of corn and got seven or eight bushels and thinks that is fine for the kind of season we have had, without any rain.

Grandma Minton's sisters returned to their homes Monday.

Carrie Henderson says she has one fine Red Rock rooster for sale and some pure bred Butts Orpingtons. Her house was struck by lightning one day last week and burned quite a hole in the roof. She being right there threw water on the fire and put it out. As it was raining hard, that helped to put it out.

Uncle Geo. Pahlman has a new car to ride up and down in.

John Hedger and family visited in Merwin last Sunday.

Carrie Henderson had her barn repainted a dark red. She's looking for coal miners. She wants five men who will stay with it.

Miss Ruth Bosma took her place in the Crook school room and has taught one week. She is a good teacher and is qualified.

Dr. Smith of Amoret was born one day too soon. He is 40 years old the 13th. He says bullly, he'll get to register.

### An Exciting Ride in a Runaway Freight Car.

The other day as Cy Ward and Tom Lewis were loading poultry into a car at the Missouri Pacific station they were treated to a ride that was not on the program and one which they do not care to repeat. Mr. Ward was in the car and Mr. Lewis was walking across the gang plank with a load when he happened to look up and saw a switch engine bearing down on them. He made a running jump for the car and about the time he landed the engine struck. A brakeman had climbed on the car to set the brake, but for some reason it did not work and the car was rolled out on the main line and started for Rich Hill at about 60 miles per hour, or at least it seemed to the men inside that it was going at least that fast. The fact that a train was due at that time from the south did not add any pleasure to the trip. Every second they expected to feel the crash of the north bound train and find themselves scattered along the right of way. When about two miles south of town an up grade was encountered and the brakeman succeeded in getting the car stopped and ran ahead and flagged the train which was just ahead of them.

### The Republicans Nominate Clark Wix for Senator.

The Republican state senatorial convention held in Appleton City last week nominated Clark Wix, of this county, for state senator from this district. Mr. Wix is a very clever gentleman and a first-class story teller, but it will take a great deal more than these two accomplishments to elect a man running on the Republican ticket this year.

### Peru Items.

Us kids are going barefooted now, after the cool weather.

Miss Fae Blankenbaker is visiting in Kansas City.

Jack Keevley returned to his home in Kansas City last Monday.

BILLIE AND SUSIE.

### Mt. Carmel News.

Mr. and Mrs. A. W. Drysdale received word the last of the week that their son-in-law, Trenton Starks, of South Missouri, had been seriously injured by lightning. He was hauling water for a threshing machine and had turned his team loose to graze near the machine. As the rain came up he went to get his team and just as he stepped between them the lightning struck, killing both horses and Mr. Starks fell stunned on one of the horse's necks. He was picked up by the men at the machine and after the rain began to fall he came to a little. His hands, knees and feet and one side was badly burned. Mr. Drysdale left Saturday to help care for him and a letter from him received Monday stated that Mr. Starks was much improved and they thought that he would get along all O. K.

J. E. Leonard commenced cutting corn for W. M. Hardinger Monday.

Quite a number from our neighborhood motored to El Dorado Springs Sunday and spent the day there improving their health.

### 'Automobiles in Missouri.

Jefferson City, Sept. 9.—Secretary of State John L. Sullivan reports that during the months of February, March, April, May, June, July and August the Motor Vehicle Department has issued automobile number plates, chauffeur badges, etc., as follows:

168,168 owners' plates.  
1,624 dealers plates.  
2,240 dealers duplicate sets.  
3,690 motorcycle plates.  
20,329 chauffeur badges.  
7,650 transfers (re-registrations).  
1,350 duplicate plates.

Of the number the St. Louis office 33,003 owners; 9,495 chauffeurs; 1,217 motorcycles. The Kansas City office has registered 21,175 owners; 2,248 chauffeurs; 635 motorcycles.

During the period above mentioned, this department of Secretary Sullivan's office has deposited in the State Treasury to the credit of the Good Road fund the sum of \$1,369,384.15.

Disinfectants are now applied to all mail from prisoners of war in Germany to prevent the spread of contagious diseases from Hunland to England, particularly of cholera.
